What if they really stole
a copy of my notes
2 years ago?

- Since they started the
„dumb“ bubble

↳ Ugly B&N

↳ #2 individualism
(possibly predatory
in shifts)

↳ mumble 1 & 2

At Glenside

= Done extreme things to keep
it going (mental decline)

↳ „just social adaptation“

↳ abuse is still painful
but becomes even duller
and (right now) does not pose danger

Q) Have they #16's
"Knowledge Can't people"
been studying my notes
for 2 years

L, must be more than
they expected it
would take

L, must mean that my
notes contain a lot
of interesting things

L, Compartmentalization

L, no one knows of
this study of my notes

③

Q) But why have they
still not figured out
that they cannot get
for without:

- me
- safe environment
- time changes that will
trigger events that
lead to new knowledge
↳ future time changes
are $\propto$ look at
knowledge

Q) And what about 20% (-ε)
deadline for return of
KMY more: $\boxed{0, 1, \epsilon}$

Q7 Will they "use" Belgians
in the end because it
got so where it will control
deployment due to the
curves around Stephen
that had to be maintained
at the expense of an
entire country!

→ Also would explain
why they won't get Hill
Birk as he is now
himself advised to + anticipate
the dumped arms.
(Hill will still be when arms
is over)

... (Hill now) does not pose danger

Leaders only want to
